

Carousel Fertility

*"We're captive on a **carousel** of time /
we can't return we can only look behind from where we came /
and go round and round and round in the circle game"*

—The Circle Game, Joni Mitchell

Women are partnering later and facing their fertility realities earlier.
No one has built for the years in between.

49%

Only 49% of women age 30 today have given birth to a child — down from 63% a decade ago and 69% two decades ago

The years between "old enough to start preserving" and "ready to use what you preserved" is now a defining decade in a woman's life. There is no system built for the woman inside it.

This generation deserves excellent fertility care.
Today, the medicine works.
But the experience around it is broken.

30 user research
interviews were
conducted in Q1 2026
with women who
completed either egg
freezing or IVF treatment
across NYU Langone,
Weill Cornell, Spring,
CCRM, Kindbody, Shady
Grove, RMA, and others.

*It's the most lonely thing I've ever done in my entire life.
You don't get it unless you've been through it.*

— KATIE, AGE 35, COLORADO SPRINGS, IVF & SURROGACY

*"I wish I had known just how many eggs I'd have at 30 versus 35. I could
have just had one round at 30 and gotten all the eggs I could ever need."*

— MAIA, AGE 39, SYDNEY, EGG FREEZING

"Is there one person who's looking at me from start to finish?"

— NOUR, AGE 39, NEW YORK CITY, EGG FREEZING

Education

We meet her
before the clinic does.
Before the question,
before the regret.

Community

Peer support from women
in it alongside her today,
and women who've been
through it already.
The buddy at scale.

Companion

A digital, always-on
presence that knows her,
holds her across providers
and time, and surfaces
what's coming next.

MARKET

The fastest-growing category in women's health is scaling
without the patient infrastructure to match.

ABOUT

Three egg freezing cycles personally — at CCRM and Spring Fertility. 17+ years scaling consumer-facing healthcare brands: Chief Experience Officer at Talkspace; VP Marketing at SonderMind; Senior Product & Marketing at Amazon. B.A. Economics, Northwestern.

SUPERPOWERS

Patient empathy at the cellular level. Brand and product instinct trained on the most demanding healthcare consumers. Operating in ambiguity. Building from zero. Earning trust at the founder, clinician, and payer interface simultaneously.

EARNED SECRET

The structural gap in fertility care isn't clinical — it's longitudinal. Excellent doctors are doing excellent work in a system built to hold a woman for 2-8 weeks of a 2-10+ year journey. I have lived that gap three times. I am building the company I needed.

WHY CAROUSEL

A carousel is cyclical.
So, too, is a woman's *cycle* –
and so is the decision
to preserve her fertility.

The company is named after Joni Mitchell's song, *The Circle Game*.
The carousel carries her forward without returning her to the start.
She looks behind to see where she came from.
She can't know what's next — but she can prepare for it with care.

We start where no one does: *before* she walks into her clinic.

Choose the right clinic. Prepare with intention.

PRODUCT

Carousel is the longitudinal digital platform for women going through egg freezing, embryo freezing, IVF, IUI, and surrogacy.

AI-powered, personalized, always-on support across the full arc of her journey—
from the months before she walks through the clinic door, throughout treatment, and in the time after retrieval / transfer.
